

THE SMART SOLUTION FOR MULTI-FAMILY

Choosing security hardware for multi-family housing is no small decision. Assuring the safety of residents, protecting their possessions, and providing the management staff with an easy-to-service solution are all top-of-mind priorities.

KEY CONTROL™ DEADBOLT

The Smart Alternative to Master Keying

Re-keying and managing a traditional master key system is labor intensive, time consuming and costly. With the first and only two cylinder Key Control™ Deadbolt, either cylinder can be re-keyed in seconds, without removing the lock from the door.

- Re-key in seconds—save time & money
- Pick Resistant—passes the most stringent lock picking standard, UL437, par 11.6
- BumpGuard™ for protection against lock bumping

THE BEST SECURITY IS SMART SECURITY.

KEY CONTROL™ DEADBOLT

Key Control Deadbolt Saves You Time and Money

- Two separate cylinders, tenant & property manager, allow for more tenant key cuts than a traditional master key system
- New proprietary keyway adds security – the tenant key will never fit into the Property Manager Cylinder
- The Property Manager Cylinder is concealed when not in use to avoid tenant confusion
- Features SmartKey® re-key technology

**Rotate cylinder cap to expose Key Control cylinder*

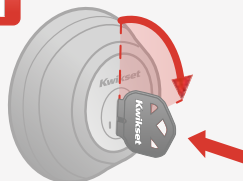

HOW SMARTKEY WORKS

Re-key as Easy as 1-2-3

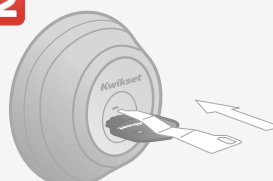

! You must have your functioning key & the learn tool for the system to work.

1

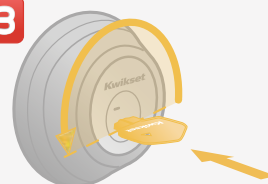

Insert functioning key & turn 1/4 turn clockwise.

2

Insert & remove the SmartKey learn tool. Remove functioning key.

3

Insert new key & turn 1/2 turn counter-clockwise. Done.
Your lock is now re-keyed!

For more information, please contact your local account representative.
